Onshore Oil and Gas Operations; Final Rulemaking Changing a Form Number

AGENCY: Bureau of Land Management, Interior.

ACTION: Final rulemaking.

SUMMARY: A final rulemaking was published in the Federal Register on February 20, 1987 (52 FR 5384), which, among other things, corrected Operating Form numbers for several forms used by the Bureau of Land Management. That final rulemaking did not change the number for Operating Form "Form 9-331" to "Form 3160-5" in the Note at the beginning of 43 CFR Part 3160. The final rulemaking did, however, correct various provisions of 43 CFR Part 3160 to change "Form 9-331" to "Form 3160-5". This final rulemaking will amend the note at the beginning of 43 CFR Part 3160 to correct "Form 9-331" to "Form 3160-5".

EFFECTIVE DATE: September 30, 1987.

ADDRESS: Any inquiries or suggestions should be sent to: Director (630), Bureau of Land Management, Room 5647, Main Interior Bldg., 1800 C Street, NW., Washington, DC 20240.

FOR FURTHER INFORMATION CONTACT: Stephen Spector (202) 653-2147.

SUPPLEMENTARY INFORMATION: The change made by this final rulemaking is an administrative change designed to conform the Operating Form numbers in the Note at the beginning of 43 CFR Part 3160 with the changes in Operating Form Numbers already made in 43 CFR Part 3160. The amendment will have no impact other than clarification of the Operating Form numbers as they are set forth in the regulations. Therefore, this final rulemaking making this administrative change is being published as a final rulemaking, with no comment period, and is being made effective upon publication.

The principal author of this final rulemaking is Stephen Spector, Division of Fluid Mineral Operations, Bureau of Land Management, assisted by the staff of the Division of Legislation and Regulatory Management, Bureau of Land Management.

It is hereby determined that this rulemaking does not constitute a major Federal action significantly affecting the quality of the human environment and that no detailed statement pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)) is required.

The Department of the Interior has determined that this document is not a

major rule under Executive Order 12291 and that it will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.).

There are no information collection requirements in this final rulemaking requiring the approval of the Office of Management and Budget under 44 U.S.C. 3507.
